- Inter-company: register no later than 5 days before the start of the session (registration on www.galia.com)

- Intra-company: organization within 4 weeks minimum (adjustable according to needs, from 4 people: contact us).

- Access via the Teams videoconferencing tool. The participant will be able to attend the training from their workstation. For any technical questions related to their workstation, they may contact their company's IT department. For any technical or training-related questions concerning the training module, the participant may contact the trainer directly.

TECHNICAL MEANS

Materials needed for each participant: laptop/computer with Excel and internet connection.

OBJECTIVES

At the end of this program, the trainee will be able to:

- Manage the logistics audit process in a required amount of time
- Schedule a logistics assessment
- Identify relevant modes of evidence
- Synthesize the information/documents collected
- Make decisions on criteria compliance/non-compliance
- Build a logistic action plan
- Complete the MMOG.np platform and send the result to the Customer

TEACHING METHODS AND RESOURCES

The training alternates between theory and practical application through exercises, individual or collective, with presentation in front of the group.
Educational materials in paper or electronic form are given to each participant.

MONITORING THE IMPLEMENTATION OF THE ACTION

Attendance sheets signed by the trainees and the trainer(s) justify the completion of the action.

EVALUATION METHODS

Practical exercises, individual or collective, with presentation to the group, then collective evaluation of the results. Final quiz.
