01 – Who are we today

A photograph of a warehouse interior. In the center, a blue forklift is carrying a large pallet of stacked cardboard boxes. The warehouse has high ceilings with industrial lighting. To the right, there are more stacks of boxes and a control panel. The overall scene is dimly lit, with the primary light source coming from the overhead lights.

Driving the circular economy

- **Preventing** waste with durable, reusable designs
- **Reusing** materials through a wide range of RTP solutions
- **Recycling** end-of-life products through buyback programs to create new packaging
- **Rethinking** materials with ongoing R&D and innovation
- **Manufacturing** products that are 100% recyclable

02. What we deliver

A solution for every need

Our product portfolio

Packaging

RTP bulk containers

RTP handheld containers

Industrial & environmental containers

A photograph of a complex industrial robotic assembly line. In the foreground, a robotic arm with multiple joints and sensors is positioned vertically. To its right, there are two large, cylindrical, metallic components, possibly part of a material handling system. Further right, a tall, white, rectangular control cabinet with blue and red buttons is visible. The background shows a factory setting with structural beams and other machinery. The entire image has a semi-transparent dark overlay.

Customised design, performance
materials, and tracking solutions for
supply chain efficiency
